

U.S. Serial No.: 09/673,779  
Communication July 15, 2002

RECEIVED

JUL 19 2002

TECH CENTER 1600/2900

REMARKS

Continued prosecution and consideration of the claimed subject matter in the accompanying patent application is respectfully requested.

I. The Amendments

The present Communication provides a substitute Specification and currently-pending Claims for the present patent application that combines all of the Amendments that were previously requested on October 19, 2000, March 21, 2001 and March 21, 2002. Please enter the attached substitute copies of the specification and claims and continue prosecution thereupon.

SUMMARY

The present Communication and substitute Specification and Claims clarify and correct the reply and Amendment that was filed on March 21, 2002, a bona fide attempt to reply in the full to the Office Action of December 28, 2001, which was made in good faith and without deceptive intent.

The application is believed to be in condition for allowance. An early notice to that effect is earnestly solicited.

No fee or petition is believed to be necessary. However, should any further fee be needed, please charge our Deposit Account No. 23-0920, and deem this paper to be the required petition.

The Examiner is requested to phone the undersigned should any questions arise that can be dealt with over the phone to expedite this prosecution.
